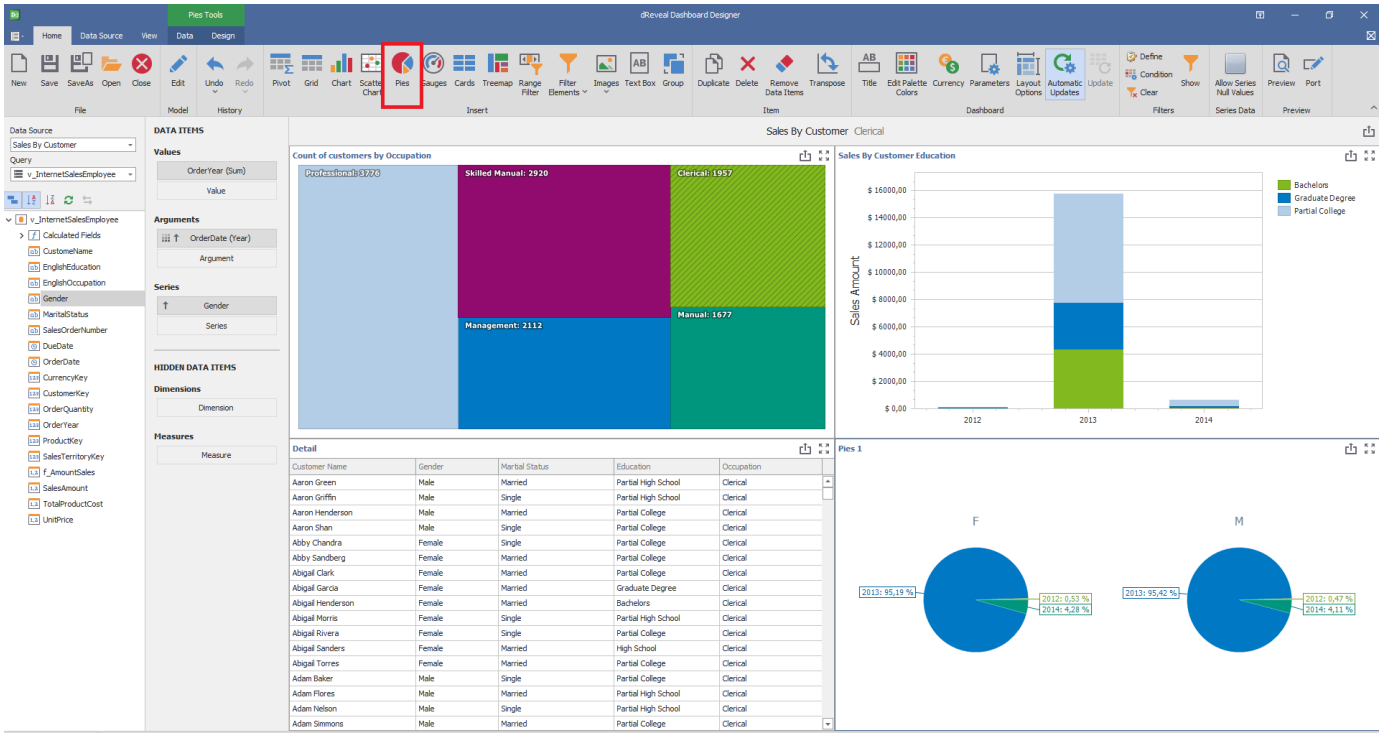
Pies

Article 08/22/2023

Dashboard Designer provides users with the ability to create detailed reports, allowing you to generate Pivot-type charts that offer a deep and dynamic view of your data. This enables you to analyze and visualize trends intuitively.

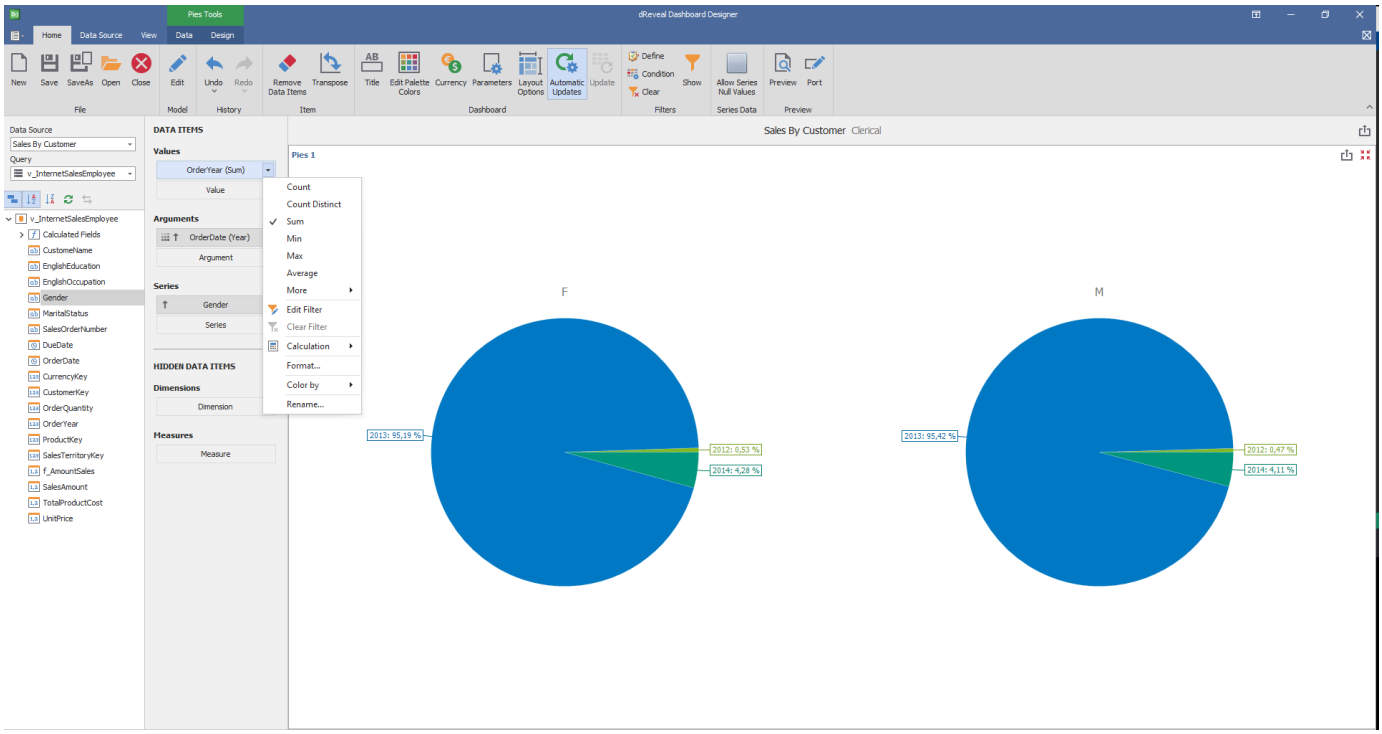
Steps to Create a Pies Filter:

1. Open Dashboard Designer.
2. Create a new report or open an existing one.
3. Click on the "Pies" icon.
4. Drag and drop the columns from the main view to the "Columns" section of DATA ITEMS.

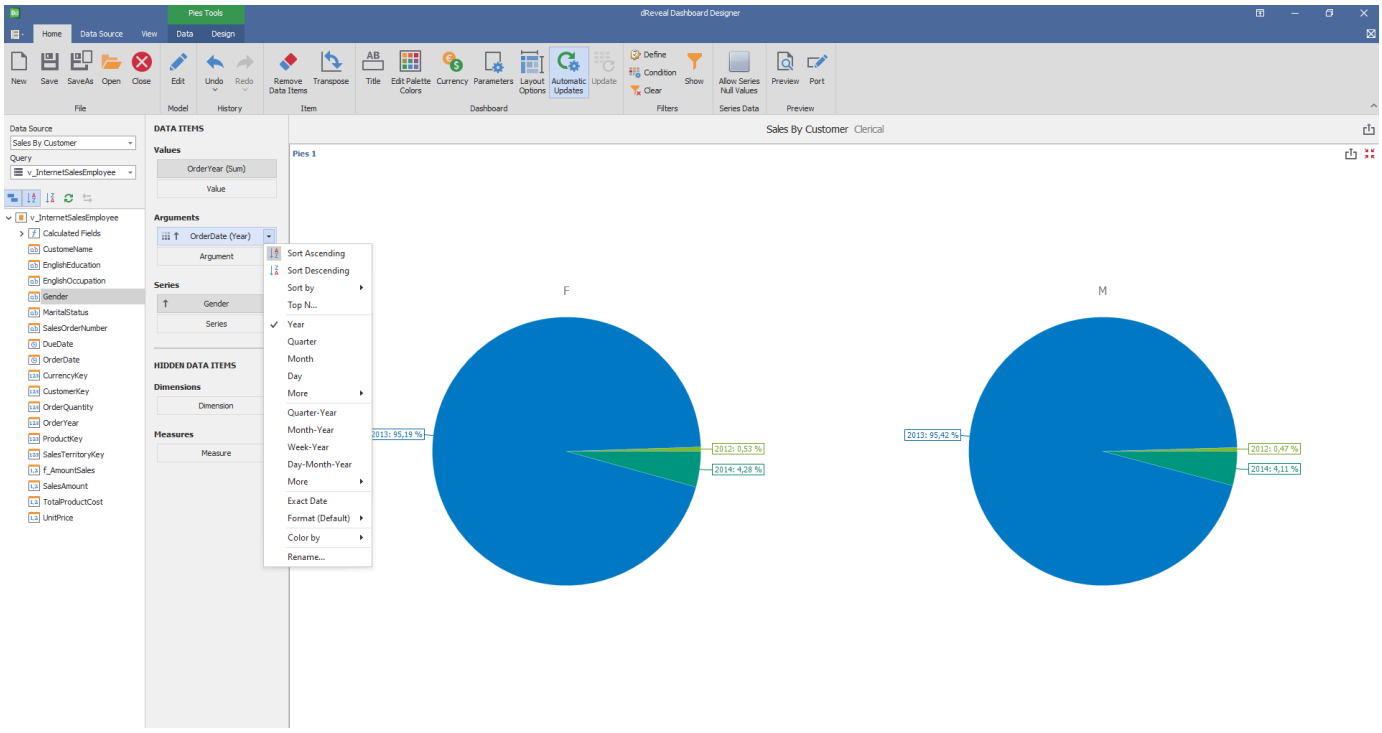


Dashboard Designer also provides various options to customize the **'Pies'** based on the data type displayed in each column. Below is a general overview of the different options you can apply to your Pies Chart.

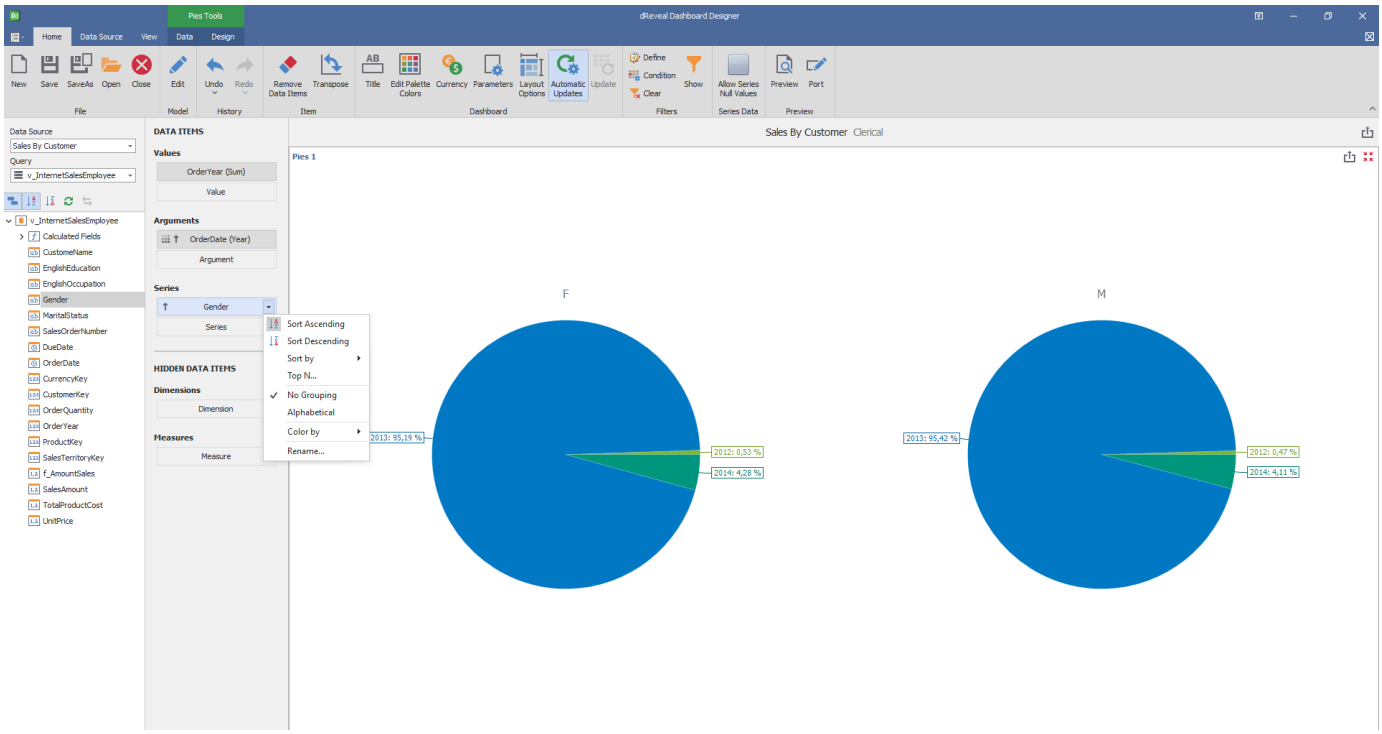
Column of type Numeric:



Column of type Date



Column of type String:



Data
