Grid Designer

Article 08/22/2023

The Grid Designer is a powerful tool in dReveal Desktop Authoring Tools that empowers power users to create detailed reports, elevating reporting to a new standard with a focus on grid-based data presentation.

The Grid Designer is not just a reporting tool; it is the gateway to a new era of grid-based data visualization. Discover how you can take your reports to the next level with Grid Designer. Organize and present your data clearly and structurally by leveraging the power of an intuitive and highly customizable grid designer.

In Grid Designer, users have the ability to apply formatting, styles, colors, groupings, and various functions to the data.
