# Dashboard Designer

Article 08/22/2023

The Dashboard Designer is a tool that provides a graphical interface, where it facilitates the creation and modification of visual control panels without the need for advanced programming knowledge.

The Dashboard Designer simplifies the process of creating and customizing dashboards, providing a friendly interface that makes it easy for users to visually represent and analyze data stored in a database.

We'll walk through every aspect of the Dashboard Designer, beginning with connecting a data source and culminating in achieving the desired final result. No need for concerns!
