How to Execute a Report in dReveal

Either you, your team or one of our developers created a report for you.. (Any of these report types)

- **AGridReportForYou.dRepX** (A Grid Type Report)
- **ADashboardReportForYou.dDashX** (A Dashboard Type Report)
- **ADocumentReportForYou.dDocX** (A Document Type Report)

In order to visualize the report, we offers you two options

Lite

Available for personal use, this Chrome extension integrates with your computer. To utilize it, activate the extension and then execute reports by dragging and dropping them into your browser window. Ensure that a local copy of the database used to create the reports is present on your machine to maintain proper functionality.

Enterprise

A sophisticated web reporting solution for businesses, featuring a centralized reporting hub. It can be deployed within your environment with customizable security settings for each user. End users will only have access to the data necessary for their analysis through the reports and will not require direct access to the underlying database.
