Version: 4.2.2

Actions you can apply to your report

Article 08/22/2023

Grid Designer offers various actions to enhance data visualization, such as conditional formatting, column grouping, aggregate functions, merged cells, and the ability to expand and collapse data when applying grouping. These actions will allow for a more organized presentation of data, ensuring an improved and personalized viewing experience.

These actions are:

1. Group By.

2. Summary.

3. Conditional Formatting.

4. Merge cells.

5. Expand All.

6. Collapse All.
